

A SMALL PIECE OF

By Jorge A Sánchez

RETROSPECT Photo exhibition

Flemington Free Public Library, 118 Main Street, 08822

From an image it is possible to exercise the various known senses and those not recognized but which are manifested in the mind of people from memory or co-relationships. The sensory energy generated from the photographic act or the plastic creation, makes the generation of memories take place, of memories that come and go throughout existence and that allow empathy with the external world to which one belongs, be it permanently or momentarily.
